

# I Am One

Once upon a time and still today it is argued there was only one. If such one is fictional, an explanation of why one as of today is unable to explain the totality of the universe is warranted. Many limit themselves to what one knows by laws readably provable. In this modern time there are one's exclaiming comprehension of law, but argue not validity of statues but attack credibility.

Whereas as a Uniform Commercial Code Article 3 Negotiable instrument can stand alone as one, the security securing cannot stand alone without the existence of an obligation to support. Hence two parts of a mortgage loan is made up of two singularity parts, one being a valid lawful enforceable promissory note and the other supposedly a valid lawful enforceable security instrument. Where both parts are valid and enforceable, enforcements actions are limited only terms within the contracts.

One thing for certain, when law fails to support one's unlawful means and methods, one is apt to try anything and everything to discredit one's use of law. For many, this world revolves around two sets of laws, one set of laws apply to humanity and the other written by man to govern man in accordance to man's law of equity.

One method that would provide one with a claim to equitable right to property (real or personal) under a UCC Article 3 instrument as an alternate means to collect an equitable obligation would be by identification of one with a right as found upon the face of the

instrument. State and federal courts have already opined as to what constitutes an instrument's endorsement stamping being an action to create a "bearer" instrument from an "order" instrument in accordance to Uniform Commercial Code Article 3. For one short on memory and hating to admit defeat in accordance to UCC Article 3 and with court's supporting require that one entitled to enforce the instrument to endorse the instrument in a manner to create a "bearer" instrument. Once this "bearer" instrument is created and eligible to be negotiated without endorsements results in a fatal flaw, identity to a subsequent party has been lost and with a failure to identify one with rights by an alternate means as to the mortgage. No subsequent party can claim rights under either path of law as neither path of law has been followed.

In short, one or the other method and means most likely would have allowed a transfer of rights, but where neither method nor means exist, no rights remain enforceable.

One thing for certain, upon death of the body in accordance to scripture, if one has not reached an understanding prior to death, consequence for failing to follow God's law has to be assimilated and comprehended prior to death for after death there will be no possibility for understanding. Just as under man's law, failure to apply law to a situation of one's own creation does not equal two wrongs make a right. True, that mathematics allow for a negative applying to a negative results in a positive integer, but such positive integer only addresses distance traveled in totality.

Unlike the words of God providing that we forgive one for they know what they do, those who support the creation of this fatality flawed financial mechanism have and will continue to attack anyone who brings forward truth that attempts to disrupt their evil machine. One has to inquire as to “why” those who argue not against truth only attack the creditability of a messenger. Very complicated, simply hide the truth in a world of complex lies and laws and one shall for a time be able to prevail and receive monetary compensation.

Arguments exist as to whether Abraham Lincoln was an appropriate President but these words by President Lincoln ring as loudly as the Liberty Bell!

***“You can fool all the people some of the time,  
and some of the people all the time, but you  
cannot fool all the people all the time. -  
Abraham Lincoln “***

Whereas the majority of the world believes in a God, there are those who justly equally have not found evidence of truth supporting does not mean that evidence supporting a criminal enterprise under man’s law has not the capacity of being proved.

Folk’s, It Ain’t Easy, but it can be done with nothing more than power of reasoning along with the power of the pen and faith in oneself.

Dedicated to “BOSCO”, my friend, an Atheist who walked more a path of God that those who claim they walk the walk.
