

# Promissory Note

Exodus 3:14 And God said unto Moses,  
I AM THAT I AM

Note

**I am a creation of my maker.**

# Promissory Note

Note

**I am real.  
I am that of personal property.  
I am a promissory note.**

# Promissory Note

Note

**My maker is my owner.**

**My maker is my holder.**

**My holder has rights as owner  
over me.**

# Promissory Note

Note

**I was created as a negotiable instrument under definitions of Uniform Commercial Code Article 3.**

**I represent on paper intentions of my maker (tangible obligor) to follow the contract and all applicable laws.**

**My maker entered into this contract under belief that the tangible obligee (lender) would also follow the contract and all applicable laws.**

# Promissory Note

Note

**To protect my value made payable to a real party in interest, and to any subsequent assignee another contract (Security Instrument) was attached and perfected to me.**

# Now I Am Two

Note

**A Tangible Obligation secured  
by a Security Instrument.**

# Pledge of Tangible Obligation

Note

**My maker now offers me as a  
promise to repay a tangible  
indebtedness.**

**My maker in making a tangible promise created my sister granting an interest in the real property that I was created for to purchase.**

# The Sister Security

Note

**Where my sister and I are not the same, the laws are not the same that apply.**

**Where I am to be sold to a subsequent buyer, simple possession would suffice to prove ownership. However, ownership of my sister requires compliance with laws that do not apply to me.**

## UCC Intangible

Note

**Where the money stream I represent is to be sold to a buyer by my owner/holder Tangible Obligee (Lender), simple possession of the Intangible Contract by an Intangible Obligee would suffice to prove rights to collect a payment stream from the Tangible Obligee as being an Account Debtor under UCC Article 9, but such intangible rights would not extend to my sister interests in the real property without support of law.**

## Tangible Papers

Note

**Whereas my intangible payment stream has been sold to an Account Debtor (subsequent alleged lender), transferring me and my sister as personal property does not convey or assign enforcement rights to such Account Debtor.**

**Nor do I identify being “in blank” a subsequent purchaser of me for my sister to be named to.**

**The marriage fails the basics, no relationship.**

**As I and my sister have not been lawfully negotiated to an IRS REMIC trust, the creators of these tax evading investment vehicles have placed honest mom and pop investors via their so-called learned investment managers in a position to be labeled as “Tax Evaders.”**

**Along with bad comes the good, tax evaders and fee robbers wanted high speed electronic to allow for greed consumption to flourish and with that,**

**WHAT IF**

**Jesus had access to the Internet!**

## Better Than The Internet

Note

**Whereas one has to search the internet for tangible proof, those who believe in God will never rely upon the internet for intangible proof.**

**Sell not the non-believers short, for most only seek proof and in accordance, time will provide.**

# Choice

Note

**Each is to choose as to what they believe, lest just hope that what is found is the truth, for belief in lies will be the ending that has no description.**

**Your Choice!!!**
