Or

How I became a Gazillionaire, and you can too!

*Securitization*

*The process through which an issuer creates a financial instrument by combining other financial assets and then marketing different tiers of the repackaged instruments to investors. The process can encompass any type of financial asset and promotes liquidity in the marketplace.*

A hearty thanks to Dr. Ham, Ms. Little, Sgt Stafford, Lillie Langtree, Justo Jefferson, the poor little lady with cancer, and the too many names that have provided me the avenue to pool, securitize and sell every single amount of money they promised me, for a huge profit. You get their emails daily I suppose?

Here is what I did; I took all of their grateful, humble, God loving monies and pooled them all together and am now selling these various pools through various tranches, from *low* dollar to *high* dollar in efforts to pay off the national debt because my leaders can't seem to do it. All they do is spend more money for you and your family to pay their debt off.

Do what?

You are telling me this is illegal? Hello?

If this is illegal, then what is it the *too big to fail* banks are doing?
