

Who is not on the ballot?

“GOD”

In the world's elections there is one name that appears not upon any ballot, “GOD”. In the United States we see the names like those of the Republican Party, the Democratic Party, even that of Tea Parties and Independents and God only know how many other names are not named. One could ask why the name of God does not appear upon a ballot. Where one runs for office and truly carries God within their soul, God is on the ballot by proxy.

When one runs for office for the benefit of Satan and runs not for the benefit of humanity and God then the one has charted a path to or. There is no bargaining with God, you are either all in or. God will never choose one's path to be that of or, that choice was made by the running man. One can run hither too and hither there, whereas, the path one chose in life is that path that one will have elected for eternity.

Here in America, we see a blame game. Not my fault, it's their fault. In America, media constantly reports an issue in resolving is due to a divided leadership where such division can be seen being divide by a partisan aisle and creates an absolute paradox to “United We Stand.”

Who is to blame? We each are to blame, a path was provided for one to follow for the benefit of humanity, and free will to choose is one of the greatest gifts of God and is most likely the most wasted gift.

Choose Wisely
