

“Who to Vote For”

Democrat Republican Tea Party

It is not the government that has failed the American People.

It is that number of people that are within the government that have failed?

Senator Franken has stepped up for the people.

Congressman Grayson has stepped up for the people.

This author will vote for those that support the people.

“Let the TRUTH be known and allow time for the leaders of the American People to pledge their allegiance to Truth, Justice and America.”

The author made the above statement in a prior writing.

A recent pledge was made to the American people.

Those that made the pledge where already in office, and as such only a single question arises,

“Why have those that pledged not already stepped up for the American People?”

This Author recommends all need to vote.

The choice is yours.

This country and all it stands for is on the line!!!
